Children’s Outpatients
Chelsea & Westminster Hospital

Contract Details

Value: £1.3m

Client: Chelsea & Westminster NHS Foundation Trust

Arch: Hunters

QS: McComb Partnership Ltd

ME Construction have recently completed the refurbishment and fit-out of the Children’s Out Patients at Chelsea and Westminster Hospital.

This exciting fast track project, commenced in early January 2014 which included internal fabric strip-out and major reconfiguration of existing building and medical services.

The adjacent medical departments remained live at all times through-out the works and hence careful planning and liaisons were essential to ensure disruption was kept to an absolute minimum.

The completed works included a specialist audiology booth, sensory rooms, reception and waiting areas.
