92 OLD CHURCH STREET

Contract Details

Value: £890k

Architect: Inature Architecture and Design

Client: 92 Old Church Street Ltd

The complete strip-out and refurbishment of a 1930's brick and concrete end of terrace dwelling on four floors including new mechanical and electrical services, underfloor heating, new steel and brick infill conservatory and finishing to a high standard.

The project also involves the formation of two new external light wells to provide alternative access and additional natural light to the existing basement area involving excavation in close proximity to existing services and party walls.
